## GENERATOR RENTAL

SafeCare offers contingency planning services so that you are prepared and ready when your need for rental power arises. No matter what your industry, we're ready to help you prepare for a smooth transition.

### MARKETS WE SERVE

- Healthcare Centers
- Construction
- Utilities
- Manufacturers
- Government
- Data Centers

### OUR SUPPORT TEAM

- Fleet of service vans for superior field work
- Trained technicians providing timely, reliable work
- 24/7 commitment to keep your power on
- On-site delivery

## Test and Inspections

### Fuel and Oil Sample Testing

Need to fulfill OSHA or NFPA 110 testing requirements? We can help with quick turnaround. (Up to 10 to 14 days after service)

### Semiannual Inspection

20 point inspection including: visual inspection, check fuel, oil, coolant and other fluid levels, battery test, start and run the engine, and if permitted, transfer the load to the facility.

### Annual Service

55 point inspection including: yearly maintenance including all the manufacturer recommended service items. A comprehensive inspection of the engine's cooling, fuel, lube, exhaust, and starting system, as well as inspection of the engine monitors, safety controls, and control panel is also performed.

### Transfer Switch Maintenance

Inspect and clean all contacts, scan for hot spots, verify that all time delay switches are correctly programmed, voltage drop is recorded across current carrying contacts.

## GENERATOR SERVICE, MAINTENANCE & INSTALLATION

Our company values long term relationships with all of our customers. We will provide you with the best solutions to your power needs. With our convenient locations across Indiana and Kentucky, SafeCare is recognized as a leader of full service, on-site power systems.

### EXPERIENCE

We have a large base of generator set installations for standby and prime power. Our long list of repeat customers is a testimony to our success and reputation for quality work in power generation. All of our service technicians are thoroughly trained professionals. And we don't limit ourselves to just one popular brands product. **We repair all makes and models of generators and automatic transfer switches.**

### OUR SERVICES:

A key ingredient for generator longevity is a good maintenance program. Our goal is providing you with a maintenance program that keeps you worry free and helps keep your system trouble free. Our maintenance program is based on NFPA 110 and factory recommendations. You will be provided with a written and access to a web based report of each inspection performed, giving you an accurate and valuable service history of your power systems.
